

Student Report Cards Q1 Nov 18, 2022

Paperless Report Cards are well underway, and as it is report card season, we want to ensure parents and guardians are using the PowerSchool App to check grades and comments. **Please check your PowerSchool App for all of the updated information.** Teachers **update assessments and comments often** so students and parents receive feedback *all year* on specific assessments, and not just at report card time where there was a general comment highlighting student progress.

We want to make this a smooth transition for parents and guardians so we have a few items to highlight.

- **Make sure you are in Q1**
 - On the top right hand corner of the PowerSchool App, **select Q1** to see all of the assessments and comments for the first quarter of the year.
 - From this point on, parents and guardians will **see new assessments and comments under Q2.**
- **To see the overall/accumulative grade for the course**
 - **Elementary/Jr High** (Kindergarten - Grade9) select Y1
 - Please be reminded that some classes in the elementary (French, PE, Music, and Art) are comment based only.
 - **Jr High - Core Courses** select S1
 - **Sr High - All Courses** select S1

Please note teachers will continue to update student's assessments and feedback throughout the year so that parents and guardians have timely communication about progress.

If you have any questions or concerns regarding this progress, please contact the teacher directly.
